### Beal Estate for Sale.

FARM LANDS for SALE.—The ILLINOIS CENTRAL RAILROAD COMPANY is now prepared to

TENTRAL RAILROAD COMPANY is now prepared to seel over

TWO MILLION OF ACRES

OF

FARMING LANDS,

In TRACTS OF FORTY ACRES AND UPWARD

ON

LONG CREDITS

And at:

LOW RATES OF INTEREST.

These Lands were graniced by the Government to aid in the construction of this Railroad, and include some of the richest and most fertile Prairies in the State, interspersed here and there with magnificent groves of oak and other timber. The Road extends from Chicago on ble north-east to Cairo at the south, and from thence to Galena and Dunleith, in the north-west extreme of the State, and as all the lands lie within fifteen miles on each side of this Road, ready and cheap means are afforded by it for transporting the products of the lands to markets. Moreover, the rapid growth of flourishing towns and villages along the line, and the great increase in population by imagration, &c., afford a substantial and growing home demand for farm produce.

The coil is a dark rich mold, from one to five feet in depth, is

migration, &c., afford a substantial and growing home demand for farm produce.

The soil is a dark, rich mold, from one to five feet in depth, is gently rolling, and peculiarly fitted for grazing Cattle and Sheep or the cultivation of Wheat, Indian Cora, &c.

Economy in cultivating and great productiveness are the well-known characteristics of Illinois lands. Trees are not required to be cut down, stumps grubbed, or stone picked od, as is generally the case in cultivating new land in the older States. The first crop of Indian Corn, planted on the newly-broken sod, usually repays the cost of piowing and fenetug.

Wheat sown on the newly-turned sod is sure to yield very large profits. A man with a plow and two yoke of oxen will break one and a balf to two acres per day. Centracts can be made for breaking ready for Corn or Wheat, at from \$250 & 250 per acre. By pudicious management the land may be plowed and feneed the first, and under a high state of cultivation the second year.

Corn, Grain, Cattle, &c., will be forwarded at reasonable.

\$2.50 per sere. By pedicious mismagement the land may be plowed and fenced the first, and under a high state of cultivation the second year.

Corn. Grain, Cattle, &c., will be forwarded at reasonable rates to Chicago for the Eastern market and to Cairo for the Southern. The larger yield on the cheap lands of lilinois over the high priced land in the Eastern and Middle States is known to be much more than sufficient to pay the difference of transportation to the Eastern market.

Bitaminous Coal is mined at several points along the Road, and is a cleap and desirable fuel. It can be delivered at several points along the Road at \$1.50 to \$4 per tun. Wood can be had at the same rates per cord.

Those who think of settling in low or Minnesots, should bear in mind that lands there of any value, along the water-course and for many miles inland, have been disposed of; that for those located in the interior there are no convenience for transporting the produce to market, milroads not having been introduced there, that to send the produce of those lands one or two hundred mides by wagon to market would cost much more than the expense of cultivating them, and hence Government lands thus situated, at \$1.25 per acre, are not so good investments as the land of this Company at the prices fixed.

The same remark hold good in relation to the lands in Kanass and Nebraska, for although warant lands may be found nearer the water course, the distance to market is far greater, and every hundred miles the produce of these lands is carried either in wagons, or interrupted water communications, increases the expenses of transportation, which must be borne by the settlers in the reduced prices of their produces; and to that extent precisely are the incomes from their farms, and of course cut their investments, annually and every year reduced.

The great fertility of the lands now offered for sule by the formace, and course the received water of summer or the most one of these than the base of the Eastern and Middle States, is much more t

water of Summer or the frost of Winter.

PRICE AND TERMS OF PAYMENT.

The price will vary from \$5 to \$25, according to location, quality, &c. Contracts for Decid may be made during the year 1856, stipulating the purchase money to be paid in the annual installments—the first to become due in two years from the date of contract, and the others annually thereafter. The last payment will become due at the end of the sixth year from the date of the contract.

ment will become due at the end of the cultar year from the case of the contract.

INTEREST WILL BE CHARGED AT ONLY THREEF FER CENT PER ANNUA.

As a security to the performance of the contract, the first two years interest must be paid in advance, and it must be understood that at least one tenth of the hand purchased shall yearly be brought under cultivation. Longer credits, at 5 per cent per annum, may be negotiated by special application. Twenty per cent from the credit price will be desineted for cash. The Company's construction bonds will be received as cash.

Ready-framed Farm Buildings, which can be set up in a few days, can be obtained from responsible persons.

They will be 12 feet by 26 feet, divided into one living and three bedrecoms, and will cost complete, set up on ground chosen anywhere along the road, \$150 m reads, exclusive of transportation. Larger buildings may be contracted for at proportionate rates. The Company will forward all the materials for such buildings over their road promptly.

Special arrangements with dealers can be made to supply those purchasing the Company's lands with fencing materials, agricultural tools, and outfit of provisions in any quantity at the low eat wholesale prices.

Golden Hill Institute—A Classilowest wholesale prices.

It is believed that the price, long credit, and low rate of interest charged for those lands, will enable a man with a few hundred deliars in eask and ordinary industry to make himself independent before all the purchase money becomes due. In the
mean time, the rapid settlement of the country will probably
have increased their value four or five fold. When required, as
experienced person will accompany applicants to give minormation and sid in selecting lands.

Circulars containing numerous instances of successful farmlog, signed by respectable and well-known farners living in the
neighborhood of the Railroad lands throughout the Stale—also
the cost of fencing, price of cattle, expense of harvesting,
the content of the countract—or any other information—will be
threshing, etc., by contract—or any other information and in selecting lands.

Byody por

BEAUTIFUL COUNTRY SEAT at Newburgh on the Hudson, fine large stone Mansion, with 16, 20, 30 or more Acres, well shaded and fruited, and surrounded by spien-cial country seats; the views of rizer, bay, mountain, are not equaled by anything on the Hudson. VIFNANA, &c.—Specifications and Drawings for Applications,
Suircuders for Beissne of Defective Patents, Reconsiderations
of Rejected Cases, Interferences and Appedis, prepared and
conducted, and counsel given on all legal and scientific points
someocted with Patent Matters.

GREAT BRITAIN—Provisional Protections, Registrations,
Prolongations, and the Great Scal, are procured. Oppositions
entered and conducted, Assignments prepared, stamped and
realistered in Lendon.

FRENCH, AUSTRIAN, and other Continental Patents are
obtained, and Assignments prepared, stamped and registered in
the appropriate offices of record.

In regard to Foreign Applications, the undersigned feels at
liberty to remark that, as the result of the many years he has
conducted this business, and the perfection of his arrangementa
abread, he has teken there during that time a majority of all the
Patents issued to foreigners; while as an evidence of their legal
strength and velidity, not one has failed of being sustained when
before the Court.

It is nucless to proceed to Europe to dispose of an invention
before Patents are secured, as prior exposure will void the title.
Pull information, as to costs, &c., can be had on application as
above to

New-York, Sept. 24, 1856.

FOR SALE — 450,000 FIRST MORTGAGE EIGHT PER CENT CONVERTIBLE SINKING FUND BONDS of the DUBUQUE and PACIFIC RAILROAD COMPANY.

The Road is situated in the State of Iowa, and extends from Dubuque (the western termination of the Galena and Galeage Railroad on the Mississipui River) in a dne west course through Independence, Cedar Falis and Fort Dodge, to the Missouri River, at the mouth of the Big Sloux River.

These Bonds are issued upon a basis of more than \$1,200,000, are dated April I. 1856; are payable in 20 years; their interest coupons are payable senti-annually, in April and October, and they are secured by a deed of trust of the Road, equipment, took and franchise of the first division of the lime.

The Reilroad Company is the recipient of 1,324,000 acree of lands of the most productive and inviting character.

The convertible privilege is therefore of great value, and the responsibility of the Company is unquestionable.

We recommend these Bonds to our friends as a first-class security.

The Depot of the SEAMLESS GARMENT MANUFACTURING COMPANY, for the sale of Patent Seamless Corbing

TURING COMPANY, for the sale of Patent Seamless Constants wholesale, is at No. 22 DEY-ST., NEW-YORK.

These Garments are woven in the wood, making a close fabria of uncommon strength.

They cannot rip, as they are entirely whole.

They are almost impervious to rain, and a person clad in them will have no occasion to complain of the cold.

Merchants and clothiers are invited to examine.
